

i2i CHES Quick Reference Guide

IS ENTERPRISE-CLASS, PRIVATE CLOUD HOSTING FOR YOU?

WE'VE BUILT THE STRATEGY. NOW IT'S YOUR MOVE!

Put your data in the hands of the premier provider of enterprise-class, private cloud hosting for the business community, associations and groups. With i2i CHES (Cloud-Hosted Enterprise Solution Services), pricing is based on a per user, per month basis and options are available for dedicated or shared environments, so you're sure to find the right solution to your needs. Our "Desktop as a Service" (DaaS) offering includes options for application hosting, enterprise messaging and collaboration utilizing the latest Microsoft technologies. Our "Infrastructure as a Service" (IaaS) offering includes options for file sharing, data storage, back-up services, FTP services, and server hosting. After an initial technology survey is completed, setup fees and computing environment charges are determined. The following table provides an overview of our services and customized packages available.

CLIENT FIT	<p>500+ users</p> <p>Small to Mid-Market sized business, association, institution or group (from any industry) looking to outsource 100% of I.T. to the cloud.</p>	<p>25 to 500 Users</p> <p>Small to Mid-Market sized business, association, institution or group (from any industry) looking to partially outsource I.T. to the cloud.</p>	<p>1 to 25 Users</p> <p>Micro small or small business or group, either already established or just starting, that is looking to partially outsource I.T. to the cloud. A good fit for professional service firms, and medical or dental practices.</p>
